HELLINGER SCIENCIA®

ONLINE AND ON-SITE

Bert Hellinger is the originator and founder of Familienstellen.

His spirit of research, pioneering and creation never rested.

*Bert Hellinger and Sophie Hellinger called the results
of this long-time joint research work Hellinger scientia®.*

Hellinger scientia® is the "science of all interpersonal relationships".

The quintessence of this is 112 books in 41 languages. In the VideoArchive of Hellinger scientia®, Hellinger® publications exist over 4000 hours of teaching and learning videos and audio recordings.

BERT HELLINGER

recognized the basic principles of life, which he called the "Orders of Love". Since then, we have been able to see the relationships among people in a different context, to understand them and to communicate them to others for the success of life. With this deep look into the soul, we see through the secret movements of a person.

They are always motives of love, but in full realization they can also cause disasters, for oneself and others. Spontaneous evaluations of another person are superficial and do not do justice to the secret, fundamental dynamics behind them.

The Hellinger®schule is committed to the contents and insights of Hellinger scientia®. It conveys these in a way that can be experienced in real life, in theory and practice. Furthermore, it guarantees the preservation of the quality and purity of Original Hellinger® Familienstellen in the spirit and sense of Bert and Sophie Hellinger. It is the connection to the origin of these still incomprehensible insights of Bert Hellinger. He was always far ahead of the times. Only today epigenetics provides the evidence for this.

SOPHIE HELLINGER

founded the Hellinger®schule in 2000 and led it to worldwide success.

The Hellinger®schule is first and foremost a school for success in all areas of life.

The Hellinger®schule serves all those who want to make more out of their lives and are ready to set their lives on the path to success. As such, it gives people the fundamental tools in seminars and in online courses, and they go from being victims to shapers of their own lives.

The Hellinger®schule is a school and educational measure recognized by the government of Upper Bavaria and sees itself as an institution for continued education for adults.
